

# ACCESSORIES

Double sided frames are easily suspended from T-bar ceilings by combining "V" Clips and looped-end cables.

## Looped-end Cables

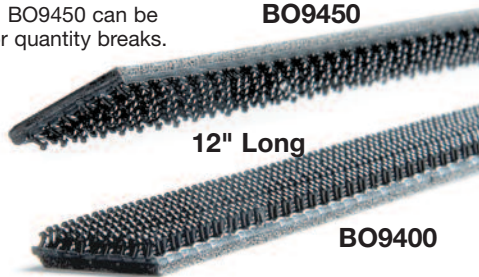

Featuring 1/16" diameter zinc-plated wire rope 12" long with 1" looped ends. Hold up to 30 lbs.

"V" Clip

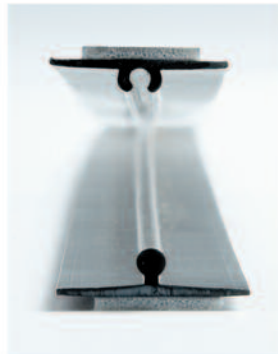

For mounting to T-bar in suspended ceiling and over double-sided Architectural Frames. Holds up to 25 lbs.

BO9400 and BO9450 can be combined for quantity breaks.

Adhesive backed BO9400 engages with BO9450 giving an audible snap to insure positive locking.

Custom acrylic sign holders and partition brackets are available in both 1/16" and 1/8" material. Choose from any of our standard brackets, or we can custom fabricate to your specifications. Please supply a drawing with size specifications, material thickness and quantity. There is a minimum quantity of 25 on custom fabrication. Fax drawing for quote.

BO9500 Sign Snap

Includes both top, bottom, and adhesive. 1/2" x 12" complete.

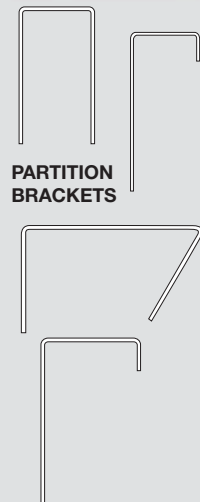

D02, D04, D06, D08, D10, D12

## Frame Dividers

Section off frames for multiple plates. Custom sizes available, call for pricing.

Dividers are available in 2", 4", 6", 8", 10", 12". Must be glued or taped in.

PARTITION BRACKETS

P110

## Clear Plastic Hanger

Mounts signs over the top of office partitions. 3 1/2" long, 2 1/8" inside dimension, 1 7/8" high.

BO9100

BO9200

## Wire Clips

Available in 6" and 3 1/2" lengths.

Insert wire clip through holes located at top of the frame. Work around bend in wire while gently applying pressure upwards. Snap wire in place between frame and small peg. Apply adhesive inside frame over wire to secure permanent wire placement.

Sign panels and lenses can be easily inserted and removed using convenient suction cups.

BO9000 1 1/2" Suction Cup

BO9010 Suction Cup Hanger

Has metal hanger for hanging signs on windows and glass doors. 1 3/4" diameter.
